

# tricare operations manual

- Provider agrees to limit services furnished under arrangement to those for which receipt of payment by the TRICARE authorized provider discharges the payment liability of the beneficiary.
- Provider agrees to being reported to the Department of Veterans Affairs (VA) as a TRICARE network provider. With regard to non-institutional network providers, the provider is asked to accept requests from the VA to provide care to veterans. The VA has the right to directly contact a provider and request the delivery of care to veteran patients on a case by case basis. An individual, home health care, free-standing laboratory, and free-standing radiology network provider who accepts VA patients is required to serve as a participating provider and accept assignment with the VA. If seen by the network provider, any documentation of the care rendered to the VA patient and reimbursement for the care is a matter between the referring VA Medical Center (VAMC) and the provider. The referral and instructions for seeking reimbursement from the VAMC will be provided by the patient at the time of the appointment. Nothing prevents the VA and the provider from establishing a direct contract relationship if the parties so desire.
- Provider agrees to being reported to Civilian Health and Medical Program of the Department of Veteran's Administration (CHAMPVA) as a TRICARE network provider. An individual, home health care, free-standing laboratory, and free-standing radiology network provider who accepts CHAMPVA patients is required to serve as a participating provider and accept assignment with the VA. UnitedHealthcare will provide you with CHAMPVA claims processing instructions on submitting CHAMPVA claims to the VA Health Administration Center for payment.
